Hasaan Toor • Aryan Chandra • Mubarak Abiola Keshiro

FurScan SCRUM 1

Current Status: Yellow

Reason(s) for Yellow Status

- Not many documents have been completed.
- However, working backend (partial for the scope of this project).

Planned Action(s)

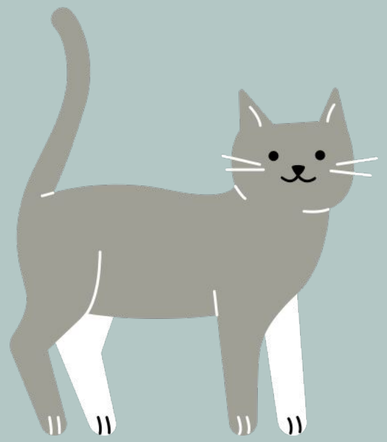
- Completion of Project Planning and Initialization Documents (Establishing MVP/scope requirements).
- Creation of Low-Fidelity and High-Fidelity Prototypes.
- Start working on front-end of application.

Contributions for this week

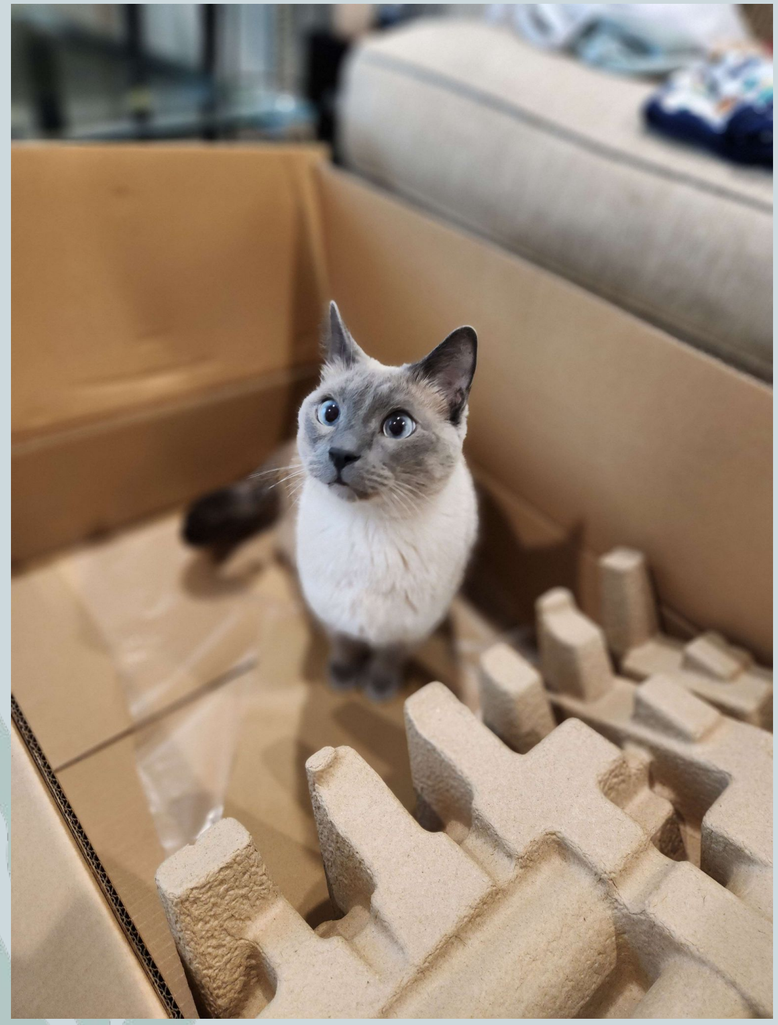
- **Aryan**: Further definition of project background & business opportunity, Business Case Doc.
- **Hasaan**: Project Status Report, Stakeholder Register, Roles and Responsibilities Doc.
- **Kesh**: In charge of taking notes from our meeting with our mentor Dr. Chan, Meeting Minutes Doc.

Project Issues and Changes

- There is a slight inaccuracy problem with our current backend. There are only a few hundred images for each category and so the dataset is very small for an effective machine learning model that we are aiming to have later.
- No changes as of yet as this is the first SCRUM



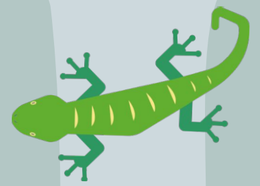
Documents & Demo



Next Up

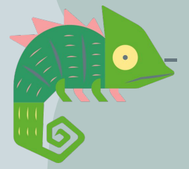
Aryan

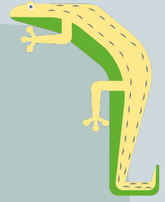
- Completion of more Project Planning and Initialization Documents
- Start frontend work & experimentation for mobile app
- Help with Low-Fidelity and High-Fidelity Prototypes



Hasaan

- Completion of more Project Planning and Initialization Documents
- Further establish scope/MVP requirements
- Start frontend work & experimentation for mobile app





Kesh

- Completion of more Project Planning and Initialization Documents
- Take lead on Low-Fidelity and High-Fidelity Prototypes

Team Reflection

- **Does the team feel “on track”:**
  Yellow, working to get on track for next time.

- **What progress does the team particularly feel good (great) about:**
  Having previous knowledge and backend is a great head-start to be happy about, will make advancing the backend even further much easier.

- **What barriers (if any) does the team feel are a current impediment to success:**
  None, progress is starting/continuing to be made, the ball is rolling.

- **What help (if any) does the team require to move positively forward:**
  None at the moment, will contact Tim and/or Christine if needed.

- **What questions or concerns does the team have (if any):**
  What are the specifics you are looking for by the next SCRUM? Anything we should focus on besides what we already mentioned in “Next Up” (or anything in there as well that requires emphasis)?

Thank You!

Any Questions?
